Action Taken Report on Green Initiatives

The reports highlight the actions taken and achievements made by Anjuman Islam Janjira Degree College of Science in response to the recommendations from the Quality Audit Report (QAR) for the assessment years 2022-2023. The institution has made significant strides in promoting sustainability, environmental conservation, and energy efficiency, aligning with its vision and mission for academic excellence and societal well-being.

Green Audit Recommendations and Action Taken Report:

Sr. No.	Green Audit Recommendation	Action Taken
01	Implement a comprehensive recycling program	Separate waste bins specifically designated for recycling were strategically placed across campus, facilitating the segregation and collection of recyclable materials.
02	Reduce single-use plastics on campus	A campus-wide initiative was launched to promote the use of reusable water bottles among students, reducing the consumption of single-use plastics.
03	Encourage paperless practices	Digital submission platforms were implemented for student assignments, reducing paper usage and promoting environmentally friendly practices.
04	Implement water-saving technologies	Water-efficient faucets and toilets were installed across campus, reducing water wastage and promoting conservation efforts.
05	Educate students and staff about water conservation	Awareness sessions and workshops were conducted to educate students and staff about the importance of water conservation and practical tips for reducing water consumption.
06	Regularly check for and fix water leaks	Regular maintenance checks were implemented to identify and promptly fix water leaks, minimizing water wastage and ensuring efficient use of resources.

Achievement Report:

1. Green Campus Initiatives:

- Implemented a comprehensive recycling program to manage waste effectively, including reducing single-use plastics and promoting paperless practices.
- Implemented water-saving technologies and regularly checked for and fixed water leaks to conserve water resources.
- Promoted green transportation by encouraging carpooling, walking, and cycling, with plans to provide electric vehicle charging stations.
- Maintained green spaces on campus, planted native trees and plants to support biodiversity, and used organic and sustainable fertilizers.
- Organized tree plantation programs to encourage an eco-friendly environment and raised awareness among students and villagers.
- Established a vermicomposting bed facility for organic waste management.

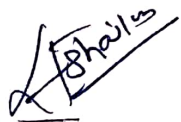

2. Energy Conservation Initiatives:

- Formulated an energy conservation policy and initiated efforts for sustainable utilization of energy on campus.
- Explored renewable energy sources and plans to install more solar panels in the future.
- Collaborated with local communities on energy conservation initiatives and fostered partnerships with relevant organizations.
- Encouraged cycling, walking, and the use of electric vehicles on campus, with considerations for installing charging stations.
- Planned projects related to energy conservation and launched campaigns on global warming awareness.
