in the future will be made possible by a mix of teachers' involvement and AI.

It should be less syllabus wise and optimum knowledge wise

It's just ok

-

It's good

I expect that with the knowledge I gain through theory I have a better understanding about how the world works not just for written papers I hope to have all of my queries gets solved so that the knowledge I gain will be with for a long time

We learn more knowledge from it and it's help in future

Atleast only one programing language subject should be included per semester and that language should be studied comprehensively

One language subject per semester so that student can understand it easily

It has to be little more brief. I expect it to be subtle other is good.

It's good not very vast

No suggestions

No

I dont have any suggestion about that

It's good.

Everything is good

Practically

The syllabus is very well set in terms of information but it is really vast and the books that are published are in very hard language that can be understand and the university has to set syllabus before the college starts and books also need to be publish as early has possible.

Overall theory syllabus set by University is very good and very helpful

Less syllabus

Give more numericals

Yes

Collaborations with international higher educational provider

When it comes to the theory syllabus set by universities, it can vary depending on the specific field of study. Generally, universities aim to provide a comprehensive understanding of the subject matter and equip students with the necessary knowledge and skills for their future careers.

Future

Syllabus that are provided is almost very vast in length and that can be very difficult to even revise the concept before exam . It should be maximum not should be too lengthy.

Theory should be more knowledgeable than present one which helps us to make our career better in this decade..

No suggestions by me

उत्तम

Technology is at the forefront of libraries' future. They understand that technology is going to be an integral part of their usefulness going forward.

Good no suggestions

Sitting arrangements should be in better ways.

Better

To be bold ,agile and essential the libraries must focus on and anderstand the need of students , academic and research.

Library should issue more than one book for students

Separate Reading Hall with seating capacity.
Digital library and Internet Facility Departmental Library

Future expectations for college library facilities may involve the integration of digital resources, expanded access to e-books and online databases, and collaborative spaces that cater to various learning styles.

The issue date should be more

It's very good

-

It's good and helpful

Library buildings often provide quiet areas for studying, as well as common areas for group study and collaboration, and may provide public facilities for access to their electronic resources, such as computers and access to the Internet.

--

Students should be given the ability to issue atleast two books at a time

There should be atleast 10 book per subject. And if the syllabus is change books should be replace before the semester is started and students should get to issue 3 books rather than 1

Good collection of books.
Issuing and return method easy.

Used technologies such as self-checkout, chatbot

None

Library should have more books of competative exams

It's quite good

Good

More books needs to be available in Library and the issuing schedule needs to be extend so we can take any book for a long time atleast for 15 days

Library facilities and books collection are very nice and very helpful to us

Very good

Technology is at the forefront of libraries future

It would be great if the college has a well-stocked library with a wide range of books, journals, and other resources that cater to different subjects and interests. Having access to a variety of materials can greatly enhance the learning experience.

Expectation

The books for computer science are not available for each n every one students have to deal with this. Should provide books in time for new upcoming changed syllabus.

None

Printer must b available in library as we can collect the imp. Information n keep prints for long period n it hopefully help us in making notes.

College timing shuld be minimum

My department encouraged me to explore my talent & potential by providing an exceptional integrated learning environment. I am really grateful to my teachers who have changed my whole aspect towards learning. I express my heartfelt thanks to the institution for giving me the perfect opportunity to explore myself.

Timing should be less.

No.

Big lab, labrary separate multipurpose hall

It's good

No I don't have any suggestions

Good

No, its okay

No there's not, I like the faculty and I feel I had the best environment for my studies. I learned many new things from my teachers who were very helpful in every way they could.

Proper teaching staff and proper maintenance in every semester of labs and equipment in the labs and classes

No all good.

Learn from your mistakes, but do not dwell on them.

Nothing

No but college time should be less.

Giving us opportunities to learn other things

Please give our previous class back

College have to maintain and provide atleast the needed facilities to the students and also for teachers

No its ok

Nothing just try to give a little more attention to MSc.

Yes

The timing should be from 8:00 to 2:15 maximum

College building must be painted.. It looks sooo dull ..which leads to bad impression of our campus..

नाहि

Yes

Good
