Teaching is overall good .But somewhere there should be more e -learning in class room as it the best way of learning. Overall the teaching is good

Its good

Most of the students do not pay attention because of continuous theoretical class. In such cases, they try to divert their attention leading to poor performance in the exam. You can include learning activities such as seminars, debates, extempore, role play, learning games, learning styles, group discussions etc. This kind of activity awakens the interest among

students and focuses more on understanding the concepts. You can also take them for virtual trips to different places around the world to teach them for better understanding. You should take students to field trips, museums, exhibitions. Sometimes these changes of place can help students to concentrate on learning and develop questioning skills. There are many online learning tools available for students where you can set up different activities for them in class as well as for homework. In this way, they will be concentrating on learning and the information will remain in their memory for long periods of time. Conduct chapter wise, full test, revision test on a regular basis. Take help of online platforms for assessment of students. Help students in managing their time during the test or exams. Create questions on chapter wise, unit wise or whole syllabus in an online platform. Pinpoint their mistakes to identify their weaknesses and strengths. Encourage them to ask questions.

Ask them to take a topic for self-learning. Give them assignments that need a lot of research, reading and analytical skills. Conduct debates, seminars and talks for the students. Ask them to create a questionnaire from their syllabus. Encourage them to ask questions.

I appreciate teaching method, learn lot of positive things, great learning experience.

I think that the method of teaching in college is good, but the time of college is not right, this time should be changed because many students have problems with this time.

The college provides and inculcates best values in the students for their better future..

By practically teaching and learning.

Use better graphics and visual media to engage students well. Better graphics and colors arouse the interest and desire to learn among students. ... 2) Try to reach every student and ask for their doubts. ... 3) Make teaching a two way interaction.

All good

Not any suggestion

More Lcd projections must be used and college must provide better PC's to the lab for practical work.

All teachers are best

In traditional classroom settings where those teaching can see how students are doing daily, interact with them one-on-one if they have questions, and speak to them in private if needed.

Make Learning visual

no suggestion

Lecturers should be a bit more interactive.

No.any

Good experience

Thodi fees kam karo

The overall experience in college is very good

All the teaching methods are too much very well in college . Everyone should have to maintain this disciplines

Teachers should listen to the doubts of students and explain them when they didn't understand. do not let them go.

They are good but lecture timinig is too vast

Best college .

It really helps to improve the inner self

very good

The teaching is good So I can't suggest

Although college has very good teaching -learning Facilities .

Overall it is best facility in college

Very Well

Very well

Teaching is good but addition of projectors in every class would have increased students interest in learning more

Use better graphics and Visual media to engage Student well

Try to reach every student and ask for their doubts. This can only happen in a class with a moderate or limited strength of students, and is extremely important because this way, students concentrate on studies more.and There should be Hostel facility in the Campus for remote students

That's good

No Suggestions

Everything is best

Outdoor learning such as field trips, museums, exhibitions, small scale industries or conduct classes in the lawn of the college premises can help students to concentrate on learning and develop questioning skills.

good Education

Teaching of college is good no need to improve.they are giving the best in teaching

Improve college facilities

Encourage for asking questions

More time should be given to the academic and syllabus completion than co-curricular activities.

Try to reach every student and ask for their doubts.

Use better graphics and visual media to engage students well. ... Try to reach every student and ask for their doubts. ...

The way of teaching should be improved.

Try to reach every student and ask for their doubts

Use better graphics and visual media to engage students well. Better graphics and colors arouse the interest and desire to learn among students

Best

No any suggestion

Use better graphics and visual media to engage students well.

Teaching is good no need to improve its best

College fees too high

To be honest I don't find any problem with the teaching and learning experience.Everything is so good and all the teachers are so good and understanding

Use better graphics and visual media to engage student well

My college is best but I am not best👍👍

Kindly give more project and real time to solve.

Use better graphics and visual media to engage students well. Better graphics and colors arouse the interest and desire to learn among students. ... 2) Try to reach every student and ask for their doubts.

College go all very well .Teachers always keeps us encouraging .Overall, I am very grateful to be able to go to a college of my choice, and attain a quality education to better myself for my future. I truly believe that going through college experiences will have so many different impacts on my life, and will prepare me for the real world outside of school.engage in finding our own ability our own hidden skills .Thanks to all the teachers and principal.

Overall thing's in college is good

Its good

I like the atmosphere of the college & it is a good college

The college experience I will be most thankful for is the opportunity to better myself through education, forming relationships, and experience with the real world and how people relate with one another. Education is the most important part of college, but it can be very challenging. I feel that I will be very thankful for the way that classes will push me to be a better student, and that they will teach me how to manage my time and priorities.Overall, I am very grateful to be able to go to a college of my choice, and attain a quality education to better myself for my future. I truly believe that going through college experiences will have so many different impacts on my life, and will prepare me for the real world outside of school. I feel that each and every person should go through this college just to see what it's like and how much

of a difference it can make in one's life. I am very thankful for many things, and a college experience is just one of them.

Thank you so much for making a big class feel small and super fun! Thank you for a great 4th semester at college! May the wisdom and well health goes long. Thank you for your amazing lectures and feedbacks and thank you for being so supportive thank you so much teachers principle sir non teaching staff and administrators for always supporting me

I will be most thankful for is the opportunity to better myself through education in this College. Teachers are great source of knowlege and ththey have always encouraged us. Teaching, Non teaching staff very well. In College all facilities like library, gym khana, etc are ver well

Good college

My overall experience has been amazing, The college has provided me with a number of opportunities to grow and explore my skills. I have always found a positive and healthy environment and the teachers are highly supportive.

Very Good

The college not only develops students academic knowledge but also struggles to incalcate the values and ethics which are essentail for the stuents future

One of the best

Thank you for your amazing lectures and feedbacks and thank you for being so supportive

I am glad to provide you with my feedback about the college. My overall experience to date has been amazing, and the college is having an amazing infrastructure. Your college has provided me with a number of opportunities to grow and explore my skills. The emphasis on sports along with education always helped me a lot. I have always found a positive and healthy environment and the teachers are highly supportive. Most of my doubts were cleared after the classes get over. I am highly thankful to you for providing me with an opportunity to be a part of your college. It has added a number of values to my life.

Thank you for amazing leacture and feed backs for being supporting
